Velora ENTERPRISES
House of Cocoa, Coffee and Vanilla

TECHNICAL PRODUCT PROFILE

WUGAR

UGANDA ARABICA · PROCESS CLASSIFICATION

FAMILY IMAGE · ILLUSTRATIVE

SPECIES	PROCESS	SIZE
ARABICA	WASHED	LOT SPECIFIC

TECHNICAL CHARACTERISTICS

Botanical identity	Coffea arabica
Trade designation	Washed Uganda Arabica, other than Bugisu.
Processing profile	Washed / wet processing
Size classification	Wugar / Drugar alone does not establish a single screen size.
Screen / grade selection	State the contracted subgrade and verify its screen distribution.
Quality evaluation	Assess green defects, moisture, roast and cup sample before approval.
Packing / storage	Agree bag size and liner. Store in a dry, clean, odour-free place.
Traceability	Confirm producing area, crop year and batch reference.

APPLICATIONS / BUYER SELECTION

Roasting and blending; select the lot by sample rather than relying on the process name alone.

SUPPLIED-LOT CONFIRMATION

Screen range, moisture, defects, cup characteristics and packing are to be agreed for the supplied lot.

Research profile; not a certificate of analysis or a shipment guarantee.
